SECTION DETAIL - PREMIER

Heavy extruded vinyl spacers between glass blocks provide strength, alignment and flexibility. Unlike traditional mortared joints, our high performance, flexible silicone joints will not crack during shipping.

High performance silicone seals on both sides of the frame will not mold or mildew like mortar. Perfect for showers!

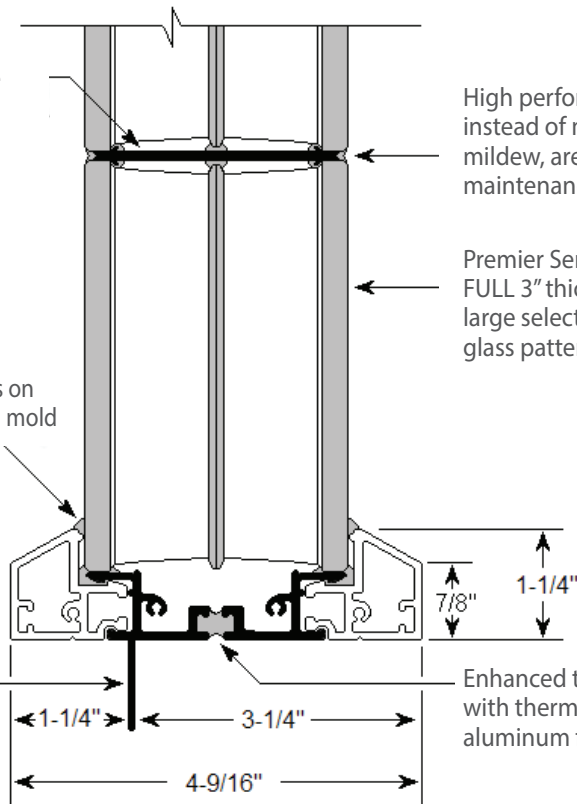

Extruded aluminum frame is available in 8 standard colors

Integrated nailing fins for easy installation

High performance silicone joints instead of mortar will not mold or mildew, are longer lasting and maintenance-free.

Premier Series glass blocks are a FULL 3" thick and available in a large selection of distinctive glass patterns

Enhanced thermal performance with thermal break in extruded aluminum frame base

PREMIER SERIES

KEY FEATURES AND OPTIONS

- Select different frame colors for exterior and interior sides (no extra cost) - 8 standard colors to choose from
- Full 3" thick glass blocks - select from 5 distinctive glass patterns
- Completely factory assembled and weather sealed on both sides
- Powder-coat finishes are much more durable than paint for shower and bath installations
- Anti-fungal silicone joints and frame seals will not mold or mildew like mortar
- 79 standard window sizes
- 190 custom colors available at additional cost (call factory for details)

BUILDER SERIES

KEY FEATURES AND OPTIONS

- Completely factory assembled and weather sealed on both sides.
- Heavy-duty vinyl frames are available in White, Almond or Grey colors.
- 2" thick REAL GLASS BLOCKS available in Wave, Frost or Ice patterns.
- Anti-fungal silicone joints and frame seals will not mold or mildew like mortar.
- Unlike acrylic block windows, just use any off-the-shelf bath cleaner. Real glass block will not scratch or yellow.
- 90 standard sizes available.

Heavy extruded vinyl spacers between glass blocks provide strength, alignment and flexibility. Unlike traditional mortared joints, our high performance, flexible silicone joints will not crack during shipping.

High performance silicone joints instead of mortar will not mold or mildew, are longer lasting and maintenance-free.

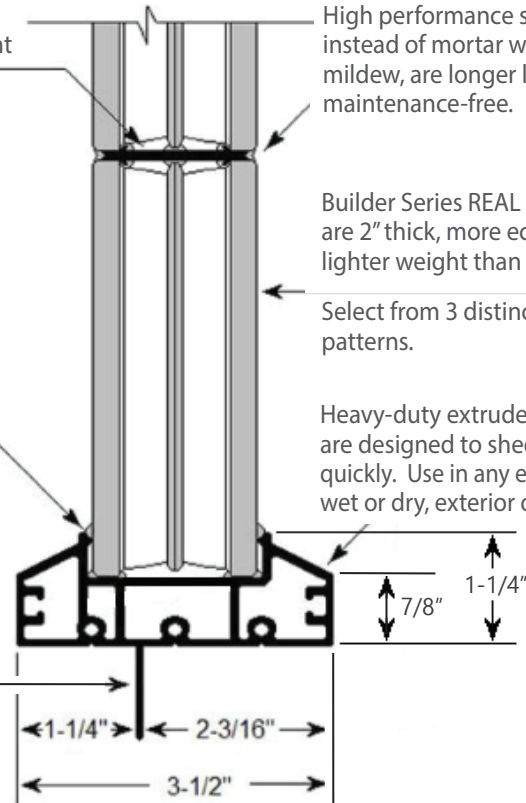

Builder Series REAL GLASS BLOCKS are 2" thick, more economical and lighter weight than 3" thick blocks.

Select from 3 distinctive glass patterns.

Heavy-duty extruded vinyl frames are designed to shed water and dry quickly. Use in any environment, wet or dry, exterior or interior.

High performance silicone seals on both sides of the frame will not mold or mildew like mortar. Perfect for showers!

Integrated nailing fins for easy installation

EASY INSTALLATION:

Pacific Glass Block Windows are completely assembled, weather sealed, and install the same as any window with integrated nailing fins. Now, anyone can install glass blocks!

NATIONWIDE SHIPPING:

We manufacture each window to your exact specification before carefully packaging and shipping for safe delivery.

GUARANTEED QUALITY:

Every component of a Pacific Glass Block Window is designed to provide the highest quality and the most design flexibility of any glass block window product in the industry. Meticulous attention to detail by highly skilled craftsmen assures consistent warranted quality in every window.

DID YOU KNOW:

- Our real glass blocks will not scratch, haze or yellow like acrylic blocks - maintenance free
- High-performance silicone between glass blocks is mold & mildew proof - better than grout or mortar
- Easy to keep clean with off-the shelf bath & tile cleaners. No restrictions like acrylic blocks
